

# MIRASYS

## Keeping Patients & Staff Secure Around the Clock

At Mirasys VMS, we understand the unique challenges faced by the healthcare sector, where security and reliability are paramount. Our advanced video management system is tailored to meet the rigorous demands of healthcare environments, providing unparalleled ease of use, reliability, and resilience. Designed for always-on security, Mirasys VMS ensures that your facilities are protected around the clock, allowing healthcare professionals to focus on what they do best—providing exceptional care. With intuitive interfaces and robust features, our system seamlessly integrates into your operations, delivering real-time monitoring and comprehensive security solutions that keep your patients, staff, and assets safe.

## Why Choose the Mirasys VMS?

### Deep Experience in Healthcare Safety

Mirasys has been protecting healthcare institutions since 1997. We're deployed around the globe and protect millions of people on a daily basis.

### White-Glove Support

We know you're busy running a healthcare facility and you don't have time for issues, so we are here to help when the time comes.

### Advanced Technology (AI)

Our state-of-the-art Video Management System is Open, Easy to Use and employs the latest advancements in AI to keep everyone protected.

### Affordable but also Valuable

You will find that our system is priced just right for your safety budget while also delivering all the key features and functions you want in a Video Management System.
